

**Your Gateway to the Eurocodes
– Instantly Accessible with BSI Knowledge**

Stronger Earthquake Protection with Eurocode

The **module 48 – Construction in General** module provides:

- **All 10 Eurocodes + National Annexes.**
- A comprehensive set of **3,393 essential construction standards.**
- **Eurocode 2nd Generation** being added as published.

Eurocode 2nd Generation – Smarter, Safer, Stronger

The second generation of Eurocodes enhances structural safety, sustainability, and compatibility with modern technology while tackling key challenges like fire safety, seismic risks, and climate resilience. For example:

- **Fire Safety:** Enhanced fire-resistant design in Eurocode 1 & 2.
- **Seismic Resilience:** Stronger earthquake protection in Eurocode 8.
- **Climate Adaptation:** Built for extreme weather & futureproofing.
- **Digital-Ready:** Seamless integration with BIM & modern design tools.

BSI Knowledge is your 24/7 online gateway to over 100,000 global standards, accessible anytime, anywhere.
